

Milford School and the parents of the students of Grades K-5 agree that this compact outlines how parents, school staff, and students will share the responsibility for improved student academic achievement. It points out ways in which the school and parents can build and develop a partnership that will help children achieve the State's high standards.

SCHOOLS

Schools want parents to be involved. Teachers and other staff can do their jobs better when parents are "part of the team".

PARENTS

A compact gives parents an opportunity to be involved in their children's education. It also informs parents what the school is doing for their children.

STUDENTS

Children do better in school when they have combined support from teachers/staff and parents that a compact promotes.
