Milford School will provide parents information about curriculum and assessments at grade level parent/family meetings, through written communication and posted on the school's website. Within the first few weeks of school each grade level will provide a written explanation of daily curricular activities and assessments used at that grade level.

Milford School will partner with agencies and organizations such as Kosciusko Literacy Services, DEKKO, Milford Public Library, United Way of Kosciusko County, Kosciusko County Head Start, New Beginnings Preschool/Day Care and Milford United Methodist Preschool to offer support and information to families of preschool children and incoming kindergarteners. We invite both preschool classes to visit our kindergarten classes/school in spring prior to enrollment.

Milford School will provide training for staff to improve staff communication skills so they will be able to work with parents as equal partners more effectively. The Milford School Administration and parent committee will work together to design and implement the training. The trainings will be held twice by the end of the second trimester.

The Milford School Improvement Committee, consisting of staff and parents, will consider comments regarding the school improvement/school-wide plan. All comments will be documented and kept with the plan.
